MENDELSON'S NATIONAL Bank Note Reporter, AND FINANCIAL GAZETTE.

Furnished only to Subscribers.

Published Monthly, Semi-Monthly & Weekly.

Monthly, (per annum)	\$1 50
Semi-Monthly,	3 00
Weekly,	5 00

The plan of this Reporter being different from any other one published—viz: by describing the genuine bills as well as noting the counterfeit and fraudulent ones, enables any one to detect at a glance, by comparing the bill presented with the description in the Reporter whether it is genuine or not, or issued by the bank it purports to be from.

Every counterfeit that has ever been made has one or more mistakes in it. Our aim is to show what that mistake is.

Subscriptions may commence with any month. Remit by Drafts or Postal Orders. All letters must be addressed to

L. MENDELSON,
Letter Box, 5,196. 76 Nassau st., New York.

ADVERTISING.

Terms per square of TEN lines TEN DOLLARS per month. Bankers Cards of TWO lines, TEN DOLLARS per year.

BANKS, BANKERS, MERCHANTS, and others, are advised that their accounts are solicited, and that we continue to pay 4 per cent per annum interest on daily balances. After ten years of active experience in country banking we fancy we understand the interests of our correspondents, and shall consult it in all cases.

NOTICE.

MR. H. J. MESSENGER having turned over his Subscription List of the "METROPOLITAN NATIONAL BANK NOTE REPORTER" into our hands, we hereafter will furnish his subscribers for the term they have paid for, with our "Reporter."

Parties having receipts for both publications will have their time extended accordingly. The publication known as the "Metropolitan National Bank Note Reporter," has ceased with the issue of October 5, 1867.

National Bank of Commerce, New Bedford, Mass.

A man was arrested in Buffalo on Monday last, for passing a \$50 counterfeit bill on the above bank. The bill was well executed and well calculated to deceive. He is also suspected as being engaged in passing the counterfeit 7.30 bonds.

NEW COUNTERFEITS.

Third National Bank, Philadelphia, Pa.
First National Bank, Whitehall, N. Y.

10s, imit., letter B. Observe on upper right margin of the face of the bill the small words "National Currency" between small figures 10. The word "Currency" is spelled "Curreny." The shading of the words "Will pay" and "to Bearer" are heavy in the gen. but very light in the counterfeit.

LOAN ACTS OF CONGRESS.

Acts Authorizing Loans and Synopsis of Same.

(Concluded.)

ment shall continue in full force in all its provisions except as modified by this act.

Act of February 25, 1863, authorized a temporary loan of \$25,000,000 in United States notes, for not less than thirty days, payable after ten days' notice at five per cent interest per annum. This was increased to \$100,000,000 by the following acts; March 17, 1862, authorized an increase of temporary loans of \$25,000,000, bearing interest at a rate not exceeding five per cent per annum. July 11, 1862, authorized a further increase of temporary loans of \$50,000,000, making the whole amount authorized \$100,000,000.

Act of June 30, 1863, authorized the increase of temporary loans to not exceeding \$150,000,000, at a rate not exceeding 6 per cent.

Act of March 3, 1863, authorized a loan of \$300,000,000 for this, and \$600,000,000 for the next fiscal year, for which could be issued bonds running not less than ten, nor more than forty years, principal and interest payable in coin, bearing interest at a rate not exceeding six per cent per annum, payable in bonds not exceeding \$100 annually, and on all others semi-annually, the whole amount of bonds, Treasury notes and United States notes issued under this act not to exceed the sum of \$900,000,000. And so much of this act as limits the loan to the current fiscal year is repealed by act of June 30, 1864, which also repeals the authority to borrow money conferred by section 1, except so far as it may affect \$75,000,000,000 of bonds already advertised.

Act of March 3, 1863—And Treasury notes to the amount of \$400,000,000, not exceeding three years to run with interest at not over 6 per cent per annum, principal and interest payable in lawful money, which may be made a legal tender for their face value, excluding interest, or convertible into United States notes. Secretary may receive gold on deposit and issue certificates therefor in sums not less than \$20.

Act of March 3, 1864, authorizes the issue of bonds not exceeding \$200,000,000, bearing date March 1, 1864, or any subsequent period, redeemable at the pleasure of the government after any period not less than five years, and payable at any period not more than forty years from date, in coin, bearing interest not exceeding 6 per cent yearly, payable on bonds not over \$100 annually, and on all other bonds semi-annually, in coin.

Act of March 1, 1862, authorized an issue of certificates of indebtedness, payable one year from date, in settlement of audited claims against the government. Interest 6 per cent per annum, payable in gold; and by act of March 3, 1863, payable in lawful currency on those issued after that date. Amount of issue not specified.

Act of July 17, 1862, authorized an issue of notes of the fractional parts of \$1, receivable in payment of all dues, except customs, less than \$5, and exchangeable for United States notes in sums not less than \$5. Amount of issue not specified.

Act of March 3, 1863, authorized an issue not exceeding \$50,000,000 in fractional currency (in lieu of postage or other stamps), exchangeable for United States notes in sums not less than \$3, and receivable for any dues to the United States less than \$5, except duties on imports. The whole amount issued, including postage and other stamps issued as currency, not to exceed \$50,000,000. Authority was given to prepare it in the Treasury Department, under the supervision of the Secretary.

Act of June 30, 1864, authorized issue, in lieu of the issue under the acts of July 17, 1862, and March 3, 1863, the whole amount outstanding under all these acts not to exceed \$50,000,000.

Act of June 30, 1861, authorized the issue of \$400,000,000 of bonds redeemable at the pleasure of the government after any period not less than five nor more than thirty years, or, if deemed expedient, made payable at any period not more than forty years from date. And said bonds shall bear an annual interest not exceeding six per centum, payable semi-annually in coin. And the Secretary of the Treasury may dispose of such bonds, or any part thereof, and of any bonds commonly known as five-twenties, remaining unsold, on such terms as he may deem most advisable, for lawful money of the United States, or at his discretion, for Treasury notes, certificates of indebtedness, or certificates of deposit issued under any act of Congress.

Act of March 3, 1863, authorizes an issue of Treasury notes, not exceeding three years to run, interest at not over six per cent per annum, principal and interest payable in lawful money. Act of June 30, 1864, also authorizes the issue of and in lieu of an equal amount of bonds authorized by the first section, and as a part of said loan, not exceeding \$200,000,000 in Treasury notes of any denomination not less than \$10, payable at any time not exceeding three years from date, or if thought more expedient, redeemable at any time after three years from date, and bearing interest not exceeding the rate of seven and three-tenths per centum, payable in lawful money at maturity, or at the discretion of the Secretary semi-annually; and such of them as shall be made payable, principal and interest, at maturity, shall be a legal tender to the same extent as United States notes, for their face value, excluding interest, and may be paid to any creditor of the United States, at their face value, excluding interest, or to any creditor willing to receive them at par, including interest and any Treasury notes issued under the authority of this act may be made convertible, at the discretion of the Secretary of the Treasury, into any bonds issued under the authority of this act and the Secretary may redeem and cause to be cancelled and destroyed any Treasury notes or United States notes heretofore issued under authority of previous acts of Congress, and substitute in lieu thereof an equal amount of Treasury notes, such as are authorized by this act, or of other United States notes, nor shall any legal tender in payment or redemption of any notes issued by any bank, banking association or banker, calculated of intended to circulate as money.

Act of January 28, 1865—The whole amount may be issued in bonds or Treasury notes at the discretion of the Secretary.

Act of March 3, 1865, authorized an issue of \$600,000,000, in bonds or Treasury notes; bonds may be made payable at any period not more than forty years from the date of issue, or may be made redeemable at the pleasure of the government, at or after any period not less than five years nor more than forty years from date, or may be made redeemable and payable as aforesaid as may be expressed upon their face, and so much thereof as may be issued in Treasury notes may be made convertible into any bonds authorized by this act, and be of such denominations, not less than \$50, and bear such dates and be made redeemable or payable at such periods as the Secretary of the Treasury may deem expedient. The interest of the bonds payable semi-annually; on Treasury notes semi-annually, or annually, or at maturity thereof; and the principal or interest, or both, be made payable in coin or other lawful money; if in coin, not to exceed six per centum per annum; when not payable in coin, not to exceed seven and three-tenths per centum per annum. Rate and character to be expressed on bonds or Treasury notes.

Act of April 12, 1866, amendment to act of March 3, 1865, authorizes the Secretary of the Treasury, at his discretion, to receive any Treasury note or other obligation issued under any act of Congress, whether bearing interest or not, in exchange for any description of bonds authorized by the act to which this is an amendment; and also to dispose of any description of bonds authorized by said act, either in the United States or elsewhere, to such an amount, in such manner, and at such rates as he may think advisable, for lawful money of the United States, or for any Treasury notes, certificates of indebtedness, or certificates of deposit, or other representatives of value, which have been or which may be issued under any act of Congress, the proceeds thereof to be used only for retiring Treasury notes or other obligations issued under any act of Congress; but nothing herein contained shall be construed to authorize any increase of the public debt.

Acts of July 1, 1862, and July 2, 1864—Bonds issued to the Union Pacific Railroad Company in accordance with these acts.

Market Nat'l Bank, New York City.

10s, imit., are in circulation. Said to be poorly done—look out for them.

A TWO DOLLAR Counterfeit on the Genesee Valley National Bank, Genesee, N. Y., has made its appearance.

NEW COUNTERFEITS. NATIONAL BANK BILLS COUNTERFEITED.

Raised Bills.

10s, raised from 1s. Vig. of 1s, two female figures with hands clasped, one pointing upwards. 10s have figure of Franklin drawing electricity from the clouds, and on back of bill is DeSoto discovering the Mississippi. On back of 1s is the Landing of the Pilgrims. Well done.

50s, altered from a 5. The hills were altered from \$5s to 50s by pasting "50" on the 5 on the corner, and over the "five" in the centre. It will be well to look out for them.

100s raised from 5s on the National Banks are in circulation.

Peoples' Nat'l Bank, Jackson, Mich.

5s, imit., the bill is roughly executed. The signatures of both president and cashier are printed; the neat figure of the two females, sitting, on the lower right, is almost invisible; in the genuine it is very clear and distinct. The back of the bill is still more bunglingly made than the front.

First Nat'l Bank of Rochester, N. Y., National Bank, Cherry Valley, N. Y., Flour City Nat'l B'k, Rochester, N. Y.

10s, imit. This bill is well executed, and a dangerous counterfeit. The Die on the upper right end is very pale and has a speckled appearance in the imitation instead of a dark and lined appearance, as in the genuine; observe the small curved line under word 'United;' in the imitation it connects the letters UNI, the genuine does not. The signatures are engraved, and the bill is 1/4 inch longer.

Highland Nat'l Bank, Newburgh, N. Y.

10s imit. The green color is as good on the imit. as the genuine, and the dies, figures and lettering on the back well done. The engraving of the pictures are as coarse as wood cuts, particularly the representation of De Soto discovering the Mississippi. The river is black and the canoes scarcely discernible without a magnifying glass, while in the genuine they are plain and distinct.

The female riding on the eagle on the right end face of the bill has neither nose or mouth, and no toes to her feet. There are five curved lines between States and Washington in the genuine, but only four in the imit. There are four curves under Treasurer in gen. and only three in imit. Paper thin and white.

Fourth Nat'l Bank, Phila., Pa

20s imit., face of bill is well executed, and will deceive good judges of money. The engraving of the Baptism of Pocahontas is coarse, and the figure 2 on the back of bill is very much different from the genuine; the one on the left is imperfect, and the 0 is larger than in the genuine. The words "imprisonment at hard labor" at the bottom of note run together, especially the 'd' and 'l,' which are almost in one.

Observe on counterfeit the butt of the musket on lower left corner touches the scroll work around figures "20," and the hand of the female on man's breast, the fingers can scarcely be seen. On genuine no part of the gun touches and the fingers are quite distinct. On counterfeit under the words "This note," where it reads "This note is secured," &c., there are but three flourishes—genuine has four, also one between United and States, which is omitted in counterfeit. [These lines can be added, however, in future impressions]. The letter 'a' in 'Treasurer' under Spinner's name is larger than the other letters, and while the counterfeit is the same length of genuine it is at least one quarter of an inch narrower. On counterfeit the shield beside the eagle on back of the note contains but six stars, and they are very imperfect—on genuine seventeen stars are visible.

First National Bank, Indianapolis, Ind. Chicago, Ill.

20s, imitation, L. E. Chittenden, Register. 1775 left off the imitation alongside the gun in the Battle of Lexington on the left end of the face of the bill.

First National Bank, Portland, Me. Portland, Conn. New Albany, Ind.

20s, imit. (2d kind) S. B. Colby, Register, are very finely engraved and well calculated to deceive; the engraving is much darker than the former, and has the following mistakes: the woman's face, arms and neck in the engraving of the

Battle of Lexington are black, the genuine are white; the clouds back of the soldiers' heads are heavy and dark in the imit., but scarcely seen in the genuine; the Indian girl sitting on the ground (in the picture of the Baptism of Pocahontas) has a child on her lap in the genuine, but none in the counterfeit. The Indianapolis counterfeit has the child on her lap, and is more correct in design, but not in engraving. Look carefully at all 20s, as the plate can be altered to 1600 Banks by merely changing the name of the town.

First National Bank, Boston, Mass.

20s, imit., (3d kind) the left hand of the soldier holding the gun does not touch "D" in deposited—in genuine it does. Observe on counterfeit the butt of the musket on lower left corner touches the scroll work around figures "20," and the hand of the female on man's breast, the fingers can scarcely be seen. On genuine no part of the gun touches, and the fingers are quite distinct. On counterfeit under the words "This note" where it reads "This note is secured," &c., there are but three flourishes—genuine has four, also one between United and States, which is omitted in counterfeit. [Those lines can be added, however, in future impressions]. The letter "a" in "Treasurer" under Spinner's name is larger than the other letters, and while the counterfeit is the same length of genuine it is at least one-quarter of an inch narrower. On counterfeit the shield beside the eagle on back of note contains but six stars, and they are very imperfect—on genuine seventeen stars are visible.

Central National Bank, New York.

Ohio Nat'l Bank, Cincinnati.

First Nat'l Bank, Boston, Mass.

100s, imitation. The only way for the public to protect themselves will be not to take any \$100 National Bank Notes, except they are received from sources of well known respectability. One of the peculiarities of the counterfeit we have referred to is the "T," in the word maintain, on the right hand of the bill, is defective, and looks like the letter "I." The counterfeiter, however, can soon remedy this defect.

LOOK OUT! COUNTERFEIT GREENBACKS.

1s, (1st kind) can be readily detected by the inferior style of the engraving, particularly the head of Chase. The mouth is crooked, the eyes imperfect, and the hair on the top of the head resembles side hair brushed over to cover baldness. The back is of a lighter green than the genuine.

1s, (2d kind) the general appearance is very coarse and may readily be detected; green ink is very pale. On the imitation there is a BLACK STRAIGHT LINE under the red figures on the upper part of the bill; none in gen.

2s, imit., well executed. Coat of Hamilton badly done. The shirt bosom of Hamilton is very dark and uneven, but in the genuine white and plain. The shading of the words "UNITED STATES" light and broken.

5s, 10s, genuine notes without the red seal, and others reported without the usual number being printed upon them.

5s, imit., words "United States" heavily shaded. Gen. are clear, lightly shaded and plain. The words "Patented 30th June, 1857," under the words N. York are not on the counterfeit bill. All the counterfeits are letter A, and are $\frac{1}{4}$ inch shorter than the genuine.

On the new series of letter "A," around the figure of Liberty on left end is a plain black line. On the counterfeits, this line along the bottom of the figure running towards the right of the note forms two distinct lines, on gen. only one. But this may be a counterfeiter's dodge to have it described and alter it afterwards.

5s, imit., this bill is well calculated to deceive, and the only difference we can detect is in the die on the right end enclosing the figure 5. The genuine has three black circles enclosing the 5. The imit. has only two, and on lower right end figure 3, and on left end series 90.

10s alt'd from 1s, portrait of Chase on left.

10s imit. There are 16 small Xs on upper right margin, and only 15 on the genuine. The words "Printed by the National Bk Note Co." on lower left margin extends over 9 of the Xs on imit. and 8 on the genuine.

10s, imit., has 14 small x's on upper right margin—16 on left. The gen. has 15 x's each side of engraver's name. Portrait of Pres. Lincoln is very coarse and pale looking; imit. are dated Washington, March 14, 1862, letter C.

On the left hand of gen., the engraving is

good, in the center figure the foot of the female can scarcely be seen. On the left end bottom are the words "Payable at the Treasury of the U. S. at New York." The A's in payable are too small and uneven. The letter "n" in the word "The" is not crossed in the centre. The imprint is defective; the green ink is of too light a color.

50s, alt'd from 2s, portrait of Hamilton on left centre. The vignettes of the two-dollar and fifty-dollar Treasury note are the same. Ingenious persons are counterfeiting the body of the fifties and using the vignettes of the twos, producing a note that deceives experts.

50s, imit. observe the figures 50 on back of the bill around the margin, the 5 in the imit. runs into the 0, gen. does not. The word "FIFTY" around the above 50 can scarcely be read. Words "LEGAL TENDER" is very much blurred. Letter C dated March 3, '63. On the left lower corner the No. 550 instead of 50 enclosed in one circle.

50s, imit., observe the head of Hamilton, upon the face of the note, which represents the line of the waistcoat crossing the white collar at the neck. The acute angle formed by the shape of the collar, so far as it is shown, is perfect in the counterfeit note; but in the genuine the lines of the flesh were drawn by the engraver across the point of the collar at its junction with the waistcoat, for the purpose of relieving the angle of the sharpness it would otherwise have exhibited. This difference is not readily observed unless the notes are perfectly clean. The other discrepancy is in the shape of the ornaments in the border on each end of the face of the bills, and in the whole border on the back. The figures "50" are engraved on a green ground, of which the rim, in the genuine bill, is in octagonal form, rather well defined, though the angles are not sharp. The eight sides of what at first view appeared to be circles, may be easily discerned. In the counterfeit bill the border ornaments, containing the "50" are octagonal in only a very slight degree, and seem to be perfect circles. The general appearance of the counterfeit gives no indication of its true character.

100s, imit. the red figures are much larger than the figures of any Treasury Notes, the wings of the eagle are very coarse—the double rule running from it is heavier, and the curve twice as large, while there is a diagonal shading at the joint of the imprint with the rule, which does not appear on the genuine. On the right end of the back of the bill, the 100 in the circles are inverted, thus, 001. In the genuine this inversion is on the left end. The imprint, American Bank Note Co., is very uneven, and too large.

100s, imit., (2d kind) of the notes issued under the act of February, 1862, well executed. The spurious note is smaller, and the coloring on the back is paler than on the genuine bill. The words "one hundred dollars" on the right hand side of the counterfeit are smaller than on the genuine note.

100s, imit., (3d kind) the note is smaller than the genuine, the spread eagle is very coarse, and the shading of UNITED STATES is badly done. The bill is calculated to deceive.

COUNTERFEIT FRACTIONAL CURRENCY.

Old Issue.

50s, imit., the portraits of Washington differs one from another; in the genuine they are all alike; the green color looks light and pale.

25s, imit., well executed. Look out.

2d Issue.

10s, imitation. All gen. on the top has the word "Depositories," the imitation reads "Depositories."

50s, imit., have a pale slate color. The small barrels on lower right corner are very indistinct. The gen. have six barrels perfectly clear and plain. Three on lower row, two on next, and one on top. The counterfeit barrels are black, and gen. are white.

50s raised from 5s.

3d Issue.

50c, imit.; two kinds of the new long 50 cent currency. The imitation of one kind has DESIGNATED on upper right corner instead of DESIGNATED. The second kind has designated correctly spelt, but on the little American Shield, under the Eagle, there is a black line drawn across the upright bars of the Shield. Not so on the genuine.

25s, imit., are very pale and coarse. The letter C in cents on left end is smaller than the other letters, and too far off.

New Issue.

25s, imit., well executed, but may be detected by the absence of a period (.) after the word Treasurer under Spinner's name; the work is better than any we have previously seen and liable to deceive unless carefully examined.

25s, well executed; head of Chittenden; where it reads "Furnished only by the Assistant Treasurers" the Assistant is spelt "Assistata." In the genuine the shading of the letter "E" in "Five" is unbroken, while the counterfeit has a little notch in it.

50s, well executed. The engraving on the face of the note is excellent. The adverse is slightly blurred. The notes are an eighth of an inch narrower than the genuine.

50s, the "y" in "Colby's" name crosses a line of the coat in the genuine, but not in the counterfeit.

50s, the line of stars on counterfeit between the figures "50" at the top and bottom of the back of the note have white centres, while the entire stars on genuine are in green. The reading in black on the genuine note clear and distinct, while on the counterfeit the bronze is printed on the black, the words "FIFTY CENTS" being almost obliterated.

50s, well done. The last "e" in the signature of F. E. Spinner is omitted in some, and the (.) after print. on one end, and the d. after March 30.

50s. New and dangerous counterfeits of the last issue of the fifty cent fractional currency notes, which bear upon their face the head of Treasurer Spinner, have been detected by the Treasury Department. It can be detected by the absence of a period (.) after the word print on the right end, and also under the letter "d" in "March 3d," on the left end. The paper is thicker than that of the genuine notes, and the general appearance is calculated to deceive unless closely inspected.

Counterfeit Compound Interest Notes.

50s, imit., Compound Interest Notes, have a scratchy appearance, issue of July 15th, 1864. In the imitation the words "three years after date" on the top of the bill nearly touch the words "Treasury Department," while in the genuine there is a space of $\frac{3}{8}$ of an inch between.

2d. In the imit. the last button of Hamilton's coat is $\frac{1}{4}$ of an inch from the lower margin of the small 50s, while in the gen. the button touches the margin.

100s, Counterfeit 6 per cent. Compound Interest Notes. The engraving as well as the paper and the ink stand the comparison to the genuine. The "U" in "United States" touches the die of the "100" on the left upper corner; on the genuine there is a space of $\frac{1}{8}$ of an inch between.

COUNTERFEIT 7.30 BONDS.

FIRST.—The seal is slightly larger than the genuine; the red ink with which it is stamped is a shade lighter, and the points projecting from the seal are blurred and a little longer than the genuine.

SECOND.—The imprint at the bottom of the face of the bond is set different in the margin, there being more space given it than in the genuine.

THIRD.—The borders of the coupon which are attached to the counterfeit bonds are larger, while the red figures are finer than in the genuine.

FOURTH.—The borders of the ornamental lathe work are blurred and somewhat indifferently executed.

FIFTH.—The figures denoting the bond are slightly uneven, while the blue ink in which they are printed is a duller blue and lacks the metallic glossy appearance of the genuine.

SIXTH.—The lines forming the right shoulder of the female in the central vignette do not come up to the sword, but leave a white space. In the genuine note the lines are not only more numerous, but they come clearly and distinctly up to the sword.

On the back, the cycloid work upon which the words "pay to bearer" are engraved is much darker and heavier on the counterfeit than on the genuine; the counterfeit lines are rough, while the genuine are sharp and clear. In the date of the option the "th" after June 15th is nearer to the figures 1868 in the genuine, while in the counterfeit the "Th" is some distance from the figures.

18, 24, 35, 55, 100, and 200, alt'd and raised. 54.
The gen. has 16 small circles in the square die on right
end: limit. has only 7. The old limit. has no five on up-
per and lower margins: the new imitations have. 100,
limit, man, woman, mercury and anvil. The wing on
the centre person's head in limit. is just a pin's point
from the shading of word Albany. On the gen. it is 1/4
inch below. The word "Register" on the gen. is below
the Register's name; in the limit the black line runs into
word "Register." In the gen. no shading under the
words "In the Bank Department," limit. there is.
Gen. 18, man, females, 1 each side—1, die and head. 18
(2d plate) male, two females, anvil, 1 each side—1, ON E
across. 18, (3d plate) Indian, globe—1, die, portrait. 23,
Indiana, capitol—1, head, die. 28, (2d plate) Vulcan and
2 females, 2 in wreath each side—1, die, TWO across. 38, State
Capitol—1, die, 1, 3 females and Vulcan. 38, (2d plate) female,
shipping—1, die, 1, die. 58, male two females, anvil
1, capitol, imitation. 58, (2d plate) Indian, globe, city
—1, capitol: 100, man, anvil, females, X each side—
1, State capitol. 100, (2d plate) Indian, globe, city; X
each side—1, capitol. 200, female, cars, etc. 20 each side
—1, die, medallion. 200, (2d plate) 20 and X X, title of bank
under—1, man two females and anvil.
- Albany Exchange Bank, Albany.**..... 1

THE GREAT PRIZE!

EXPOSITION UNIVERSELLE, PARIS, 1867.

THE HOWE MACHINE CO.

ELIAS HOWE, JR., 699 BROADWAY, N. Y.

AWARDED OVER EIGHTY-TWO COMPETITORS.

THE HIGHEST PREMIUM.

THE ONLY CROSS OF THE LEGION OF HONOR

given to AMERICAN SEWING MACHINES per Imperial Decree, published in the "Moniteur Universel" (Official Journal of the French Empire), Tuesday, 21 July, 1867, in these words:

Falli cento de Machines a coudre exposant.

ELIAS HOWE, JR. } Manufacturer of Sewing Machines, Exhibitor.

The Howe Sewing Machines are celebrated for doing the best work, using a much smaller needle for the same thread than any other machine.

The new Improved Family Machine is without a rival, and cannot be surpassed,—a Hemmer, Feller, Bralder, Quilter and Guile go with each Family Machine, free of charge.

Every machine is as near perfection as the best machinery in the world can make it.

The parts being alike, if any part needs to be replaced, the operator can replace it.

Branches, or agencies, for supplying the "Howe" Machines in nearly every city throughout the world, where Machines will be cheerfully exhibited, or any information promptly furnished; or communications may be addressed for circulars, which will be sent free, to
